Customize

Your New Home

One of the most exhilarating experiences of buying a new CamWest home is the freedom CamWest gives you to customize at any point in the construction process. From paint to cabinets, carpet and tile and much more, we make your dreams come true with our unique approach to customization.

#1 **Purchase.** *Start Dreaming.* You'll be truly inspired by CamWest's incredible selection of unique homes set in distinct neighborhoods. With CamWest, you're sure to find the home of your dreams!

#2 **One-on-One Commitment.** *Discover Excellence.* Your dedicated, experienced CamWest Project Manager works closely with you throughout the customization process providing an unmatched level of personal service.

#3 **Inspiration.** *Be Creative.* Decorator magazines, showrooms, design books, there are countless ways to find creative inspiration for your own personal, custom touches. CamWest is not limited to a single manufacturer, so neither are you!

#4 **Showrooms.** *Visit And Choose.* Unlike other builders, offering just one showroom, CamWest provides a list of our trusted vendors offering you choices among our many standard features as well as custom touches.

#4 **Budget.** *Consider Cost.* It's a good idea to have a "ballpark" budget in mind before you get serious about building your customization "wish list". That way, you'll efficiently turn the dream into reality.

#5 **Timing.** *Think Smart.* You can make changes at any stage in the construction process up to closing. However, to make the most time-efficient and economical changes, visit our helpful construction timeline, or meet with your Project Manager.

#6 **Wish List.** *Build A List.* Write up your customization and upgrade "wish list", and provide it to CamWest for prompt pricing item-by-item.

#7 **Pricing.** *Finalize Ideas.* CamWest prices each item on your list, providing an OPR (Optional Pricing Request) form. You approve only the items you want, then sign a final Change Order, and pay within 48 hours to put your dreams into action.
