McKinley

Mount McKinley, officially named by the State of Alaska as Denali or "Great One" in the Dena'ina language, reaches heights of 20,320 feet. Located in the central portion of the Alaska Range, it is popular with mountain climbers, hikers and families looking for picturesque photo opportunities in its lower flower sprinkled springtime meadows. Denali National Park and Preserve was established in 1980 offering visitors ample opportunity to enjoy the dramatic sights of this national treasure from furry denizens such as marmots to dramatic snow-capped peaks.
